J.K. Rowling was born on July 31, 1965 at Yate General Hospital in Gloucestershire, England as Joan Rowling (no name). (Although Chipping Sodbury is often listed as his birthplace, Yate is mentioned on his birth certificate.)

Rowling's parents, Peter James Rowling and Anne Volant, met on a train on the way to join the British Navy (Peter and Peter's Women's Coast Guard). A year later, they were married at 19 years old. At the age of 20, when the young couple arrived, Joan Rowling, 23 months later, Joan's sister, Diane Di, became the new father.

In Rowling's youth, his family moved twice. At the age of four, Rowling and his family moved to Winterbourne. Here he met a brother and sister who lived in a neighborhood called Potter.

At the age of nine, Rowling moved to Tutschill. The timing of the second move led to the death of Kathleen, Rowling's famous mother. Later, when Rowling was asked to use a nickname for Harry Potter books to attract more boy readers, Rowling's grandmother chose "K" for Kathleen for the second time in honor.

Rowling began attending Wyeden School at the age of ten, where she worked hard for her classes and was terrific in sports.

According to Rowling, the character Hermione Granger is based on her during this period. Rowling, 15, was devastated when her mother reported that she had multiple sclerosis, an autoimmune disease. Rowling's mother was always getting sicker and sicker.

Joanna "Joe" Rowling was born on July 31, 1965, in Yate County, Gloucestershire, England. The British writer is best known for his Harry Potter fiction series. The novel is still in the spotlight today, winning many awards and selling more than 400 million copies of the book. Of all the works created by mankind to date, only this collection has been stamped with the title of "best-selling book" in history, and films based on them have won the title of "most demanding films" since the development of cinema. and proves that his fans are infinite. Rowling also won full copyright for her creative work, as well as the proceeds from her novels for her unique approach to filmmaking.

When the idea for the Harry Potter series came up in 1990, Rowling was waiting for the Manchester-London train due to delays. She was working on a research paper for Amnesty

International at the time, as well as a bilingual secretary. The tragedy that befell the author over the next seven years, including the death of his mother, his divorce, and financial hardship, was followed by the remarkable news that followed: Harry Potter and the Sorcerer's Stone, written in 1997. reached the end.

It was this work that paved the way for the creation of six successive works, the last of which was Harry Potter and the Deathly Hallows. After that, Rowling wrote three more adult books and presented them to readers: The Temporary Position, written in 2012, and the detective novels created in 2013-2014 under the pseudonym Robert Galbraith, The Cuckoo's Nest and "Silkworm".

Rowling's career flourished as a "ruined millionaire," which can be explained by the fact that he lived on his monthly salary and then became a multi-millionaire. He is the only writer to live and work in the UK and has a fortune of \$ 375 million. But according to the 2008 Sunday Times List of the Richest, Rowling was Britain's twelfth richest woman with \$ 882 million.

Forbes magazine named her one of the 48 most famous people in the world in 2007, and the Times magazine named her "Woman of the Year 2007," for her ability to share social, educational, and political inspiration with her fans. gave the highlighted honor. In October 2010, she was named "Britain's Most Influential Woman" by the editors-in-chief of leading newspapers and magazines. Not only the author's unique works, but also a number of his charitable foundations, such as "Comic Aid", "Single Parent", "British Society for Sclerosis" and "Lumos" (Children's Fund), as well as the practical support provided to many political parties - the Workers' Party and the Solidarity Party - was the main reason.
